Written: Good	Spoken: Good	Reading: Good
----------------------	---------------------	----------------------

11. English Proficiency Test : Yes

TOEFL:

DUOLINGO:

12. Essey:

5. Growing up, I had a dream of pursuing higher education from India, the country well known for its cultural diversity and quality education, where I expected to imbibe scientific and technical knowledge from a reputed institution. This dream of mine drove a sense of passion in me, causing me to work relentlessly during my Secondary and Higher Secondary Examination, in order to be eligible for the ICCR Scholarship. Undeterred by the adolescent challenges, I devoted all my time and effort to my preparation. Subsequently, my efforts paid off well as I received a perfect grade, successfully completing half my journey. However, the goal was yet far away as I had to go through the complete application and selection process. My determination and endeavor proved to be fruitful when I was awarded the ICCR scholarship in 2016 to undergo my undergraduate education at Jadavpur University in the Department of Pharmaceutical Technology. While my family and friends were proud of me for my achievement, I felt an overwhelming sense of happiness, coupled with responsibility, for finally getting the opportunity to study and live my dream. The four years I spent in India were the most enriching and memorable ones of my life. Before moving to India, I never really had a chance to live independently, which seemed a little daunting initially. However, my career goal kept me focused throughout the initial days and I settled in well. I quickly learned the art of effectively managing my finances and spending carefully. During my tenure of study in India, I had been through several unfavorable circumstances, in terms of educational and family crisis. However, I found out that I could sustain myself even in the most difficult situations, given the need. I was also blessed to have genuinely caring and helpful people around me in a new country, who were my support during those hard times. I have always been an introvert and found it difficult to open up to people outside my close group of childhood friends. This improved when I started living in the hostel and developed a sense of trust in those around me. As an international student, I received a lot of support from my professors due to which I developed an interest in doing research in pharmaceutical sciences. Since a long time now, I have felt the need to resolve the issue of health inequality in developing countries. Through my undergraduate experience I strongly believe that one of the ways to resolve this could be through novel research methods to make pharmaceutical products more economical and accessible to people from different strata of society. This motivated me to seek research opportunities in recognized institutes and industries during my course. In order to explore my field of interest, I wish to return to India to do my Masters. My experiences during the four years of my stay in India have molded me into who I am today and have helped me gain a better understanding of myself.

13. Course applied for	Course Type
Post Graduate	Engineering

14. Universities/Institutes in India where you wish to seek admission

Note : ICCR provides scholarships only for courses in central or state government universities. Candidates should be very specific and clear about the course of study which he/she wishes to pursue in India. Scholarships are not available to pursue more than one course. Candidates should ensure that the courses listed here are offered by all five Universities listed under S.No.14. The candidates must refer to the University/Institute website to know the eligibility criteria for the courses of their choice. Those seeking admission to agricultural courses must opt for ICAR in the University choice.

Please select University in order of preference

Course you wish to study	University	Course Stream
M.Tech	IIT (BHU), Varanasi	Pharmaceutical Engineering & Technology
M.Tech	IIT Bombay	Biotechnology
M.Tech	IIT Kharagpur	Biotechnology and Biochemical Engineering
M.Tech	IIT Kanpur	Biological Sciences and Bio-Engineering
M.Tech	Jadavpur University	Pharmaceutical Technology

Note: Once admission is confirmed, no change in either course or University/Institute will be permitted by the Council.

Allotment of colleges is done by the respective Universities

15. Previous Educational Qualifications

Certificate/Degree	Country	Name of School/University/Board	Year	Percentage(%)/Grade
Grade X (equivalent to Grade X in India)	Bangladesh	Viqrunnisa Noon School and College	2013	5.00 / 5.00
