Chandrim Soft

Chittagong, Bangladesh

Intern

January, 2020 – July, 2020

- Database design in Microsoft SQL Server Management Studio.
- UI design with Adobe XD and front-end design with HTML, CSS and Bootstrap.
- Some Back-end works with Asp.Net with MVC and check the test cases.
- Give presentation to the clients.

Projects

- **CMP (Chittagong Metropolitan Police) Officers Mess.**

This is a hotel management-based software where all designated police members (IG, AIG, DIG, ADIG, SP, ADSP, ASP, SI). They can book any room by themselves or they can contact with the admin to book their desired room.

- **Vonome CRM**

This is an ongoing project of my current company. Here we are focusing on Enterprise software development like CRM, SCM, Accounts etc. My team is the part of CRM (Customer Relationship Management).

- **Digital Protections using Spatial LSB Technique. (Final Year Project)**

A certain bit plane of original image is getting manipulated with watermark image. Considering the bit plane where the modification has been done is known, watermark image has been recovered from the watermarked image which is noise free and also from the watermarked image which has noise.

- **BulkyBook**

This is a service where you can book on bulk at a great discount. You can order book as a company or as individuals.

- **GIGHUB**

It is a simple social networking website for live music lovers. Musician update their gigs and followers can follow them.

- **University Management System (BITM)**

In this project we have built such a system by which a student can be enrolled in his/ her desired course, a teacher can be take his/ her own course and credit. New students as well as teachers can be registered by university authority.
