## PROFESSIONAL SUMMARY

I have graduated from the school of Engineering, Department of Electrical and Electronics Engineering, Kabul University. During my studies in college of Engineering, I took several design and theory credits such as; Electric circuit design, Electrical machine design, Residential wiring design, Theory of Telecommunication, Project design and etc. Besides, I have learned using engineering software such as; Auto CAD, MATLAB, C++, ETABS and etc., for design and analysis of Projects. In addition, I own the soft skills which are essential for making communication handling the project in a team group. My studies in engineering field and works in practical field, has prepared me to work in a challengeable position and be a valuable member of their team in my pursuit of excellence and higher achievements.

## PERSONAL SKILLS:

- Able to work and adapt in different situations
- Having good organizational skills
- Honest and confident
