Letter of Work Experience and Recommendation

As head department of mathematics of Ambo University, of Ambo University, I have had the pleasure of knowing Mr.GeletaKinkino for the last 10 years of which threes he is our students and 7 as our instructor. During this period, Geleta has successfully carried out his job and dominstrated his professional competence as lecturer. He taught courses like calculus I, Calculus II, linear optimization, non-linear optimization, applied mathematics I, applied mathematics II, applied mathematics III and others. I found him to encourages,energetic,hardworking, sociable and committed person for the work. Furthermore Geleta's academic performance and his interest in promoting research and community services, preparing material of teaching makes him a good rated academician. He has taught advanced courses in mathematics and also supervised under graduate projects on optimization and numerical analysis related topics that have potential to be applied in real life. He has always been interested in applying mathematics in engineering and other interdisciplinary programs. Therefore, I recommended him with great confidence to any related to his field. I wish him Success in his life as well as in his academic carrier.

With kind regards

Desalegn Ameno

Head, Department of Mathematics
