: No

### 12. Essey:

2. The lessons we take from obstacles we encounter can be fundamental to later success. Recount a time when you faced a challenge, setback, or failure. How did it affect you, and what did you learn from the experience? Firstly, we are all well known from the fact that obstacles, challenges and failures are the parts of success. In lack of it, we cannot taste the purity of success. The journey of success at a point starts with lots of challenges, hindrances, ups and downs as well. The quote failures are the pillars of success perfectly resembles with the statement. If achieving goals were easy, then everyone would do so effortlessly. However, it's reaching goals by clearing obstacles that makes you and your team feel accomplished and fulfilled. The obstacles we overcome define our level of success as much as the goals we set and achieve. Obstacles are those frightful things you see when you take your eyes off your goal. The greater the obstacle, the more glory in overcoming it. Obstacles are the stumbling blocks that prevent you from reaching your goals. They are the limiting factors that hinder you from achieving your desired dreams, and you have to overcome these obstacles to move further in life. It's not enough to set goals; you need to actualize your goals. It is at the point of execution that life becomes unbearable as unexpected setbacks and obstacles set in. It is not an understatement to say that every success comes with challenges. Those challenges often come as problems you need to solve. If you can solve them, you can then have the assurance that you can reach your goals. Recounting a time when I faced a challenge, setback or failure still roaming around my mind. How complex the situation were? The periods of my obstacles and challenged is still in ongoing process. It is the timeframe after completion of my graduation. Before graduation I was not too much aware about the upcoming hindrances and challenges in career settlement. After graduation I realized that the challenging period has started now. My mind was not stable where to apply for the job and MBA. In today's competitive world both the study and work experiences are equally necessary. In this context, I was suffering from dilemma and stress either to focus job or study. I was jobless because of lacking experience in a work sector. After a long try I got an entry level job. Then I started focusing on my post-graduation. I took suggestion from my seniors, colleagues and relatives about MBA program. All of them consist of distinct opinion which was really letting me confused and stressed. After doing lots of researches about MBA program in my own country and abroad, I realized ICCR from Indian embassy would be the best platform from where I can start my PG journey. I am still not sure either I will be accepted or rejected. Although I am happy to apply and try my best to get the best, this is because I am accepting this obstacle period with calm and patience. The period after my graduation affect me a lot. It let me to the mental stress and dilemma regarding where to start and how to start. From this experience I learnt that one should always keep patience and go through lots of researches while taking decisions. Success would definitely take a time as it is not an easy process. Before worrying about the results, one should focus on required input, participation, commitment and high level of concentration to reach the success

### 13. Course applied for

Post Graduate

### Course Type

Commerce & Management

### 14. Universities/Institutes in India where you wish to seek admission:
