10. Knowledge of English : Yes

Written: Good

Spoken: Good

Reading:
Good

11. English Proficiency Test : No

12. Essey:

Our lives always encounter some problems that may destroy our lives or lead us to greater success, and this happened to me during my studies in secondary school and as a result of some force majeure conditions that I was exposed to at that stage, which prevented me from studying well, which in turn affected my educational attainment, so my grades declined, which led Because I entered the Engineering Technical Institute with the specialization of assistant engineer surveyor, and during that period many of my friends cut off their relationship with me as a result of their higher educational attainment than me, which enabled them to enter the faculties of engineering, medicine, and others, which are considered among the highest scientific faculties. As a result of this treatment, which has nothing to do with humanity or friendship, I decided to study and pay attention to my educational attainment and try to compensate for the above. The struggle continued for two years of hard work and study. In the end, the moment of truth came, I graduated in the first ranked student and this is what enabled me to enter the Faculty of Civil Engineering, where I continued my studies within it with my major as a topographical engineer, and the struggle continued and I followed the same approach of work and study, and at the end of each year, I reap the results of my work with my superiority and my practical achievement. I graduated in the first ranked student and this is what enabled me later to become an assistant teacher in my college. Despite that, my passion for study, success, and science did not stop. Rather, my career continued and I continued my path, I taught the practical part of some subjects in my college for about two years, then traveled to India to study master's and I am on the verge of completion and I am looking for continuing the path with a doctorate study and returning to my homeland, my students, and my family. Every failure followed by success will flourish to guide you and your path towards excellence, but we must never slacken and give up, but continue to work and cling to hope to change our reality and chart our way to the future.

13. Course applied for

Course Type/Subjec

Ph.D Engineeringcivil engineering marine survey

14. Universities/Institutes in India where you wish to seek admission

Note : ICCR provides scholarships only for courses in central or state government universities. Candidates should be very specific and clear about the course of study which he/she wishes to pursue in India. Scholarships are not available to pursue more than one course.
