

Motivation letter for IIT KHARAGPUR scholarship

Dear Sir/madam

I am very much interested in applying for master's degree in water resource and environmental engineering .I have already graduated in 2019 , from Nungarhar university ,holding a Bachelor's degree in Engineering Faculty Water resource and Environmental Department . that four year undergraduate program in Engineering faculty Water resource department has Ultimately formed the Foundation of my perseverance in achieving a deep knowledge in the field of water Resource and Environmental . for this season, I have also studied several subjects that are related to the various aspects of water Resource and Environment .

During my four year bachelor studies , I went through the experience of creating a thesis under supervision and guidance of professor Rahmatullah Wahdatyar . this was also prepared together with my colleagues . while I was working on the assignment , our lecture has observed the quality of our work ,After getting that acknowledgment at work , I am interesting in carrying on with my studies . I believe that Engineering plays especially water Resource and Environmental plays a vital role in several aspect in our life . As a matter of fact , it also create a significant impact in many industries , as well as in different area in your society . I believe that with this subject , there is an ample scope that can work in proving the ability of one person , including intelligence and competence in this seeming revolutionary , as well as potentially extremely benefits field .

Aside from collage academics , I also become involved actively in various extracurricular activity . the motivating force behind all of this was my personal goal of developing various aspects of my own personality . while doing so , however soon I was able to have this skill of time management

I am extremely confident that studying at your universities will further expend my horizon giving me the wonderful opportunity of getting the best education possible .

Respectfully
