RECOMMENDATION LETTER

I am happy to write a recommendation letter for **Mr. Melkessa Delesa Biratu** who was a student to me for five years at Hydraulics and Water Resources Engineering Department, Jimma Institute of Technology, Jimma University and Jimma, Ethiopia. I have known him for the last five years. I rate him as a highly capable student with all necessary attributes to make him qualify for higher studies in Hydraulic and Water Resources Engineering and Related fields and good profession in Hydraulic and Water Resources Engineering and Related fields.

As a teacher to him and Dean of Faculty of Civil and Environmental Engineering I have had the opportunity to closely observe **Mr. Melkessa Delesa** for the last five years. I have found him to be highly committed, brilliant, honest, talent, active participant in various clubs, and hard-working person with a methodological approach in his work and take responsibilities seriously. Through his hard work and zeal, he has established himself as capable candidate.

He has remarkable high command over both spoken and written English, Excellent Computer skill and professional software and wonderful interpersonal, hard worker as well. He is very clever student through his five years stay.

Finally, Melkessa was graduated with **Great Distinction** by scoring the highest score from Hydraulics and Water Resources Engineering Department. I strongly recommend him for any higher study and profession in Hydraulics and Water Resources Engineering and related fields.

With Regards,

Mamuye Busier
Dean School of Civil & Environmental Engineering

Mamuye Busier Tesuf (MSc. in Hydro power Development)
Assistant Professor, Jimma Institute of technology
Civil Engineering Department
Dean, Faculty of Civil and Environmental Engineering

Letter of Recommendation

This letter of recommendation is written in reference to **Mr. Melkessa Delesa Biratu** for Scholarship opportunity. I know him since October 2018, after he recruited by Assistant Lecturer in Haramaya University, Ethiopia.

I have had the opportunity to closely observe **Mr. Melkessa Delesa** all through his stay in Haramaya University, Haramaya Institute of Technology and I would like to attest that he has always been an intelligent, confident, innovative, sincere and hard-working person. The great deal of inquisitiveness, interest and capacity to learn that he has shown during my association with him, certainly should render him best opportunities to involve in research activities.

Now **Mr. Melkessa Delesa** wants to pursue his MSc study in his field of specialization that he needs letter of reference. His modeling skills, Excellent Computer skills, professional softwares, and wonderful inter personal skills are remarkable and above all he is committed and honest young man. I believe this higher-level study would enrich his theoretical and practical knowledge and thereby will enable him to develop his innate potential better than with his current knowledge. I, therefore, take the pleasure of recommending him for a graduate study leading to MSc degree in his field of interest.

I wish him all the best in his future endeavors.

Regards

Dr. Ing. Teshome Seyoum

TO WHOM IT MAY CONCERN

I am writing this recommendation letter for **Mr. Melkessa Delesa Biratu** during his B. Sc study in year 2013/2014 G.C to 2017/2018 G.C at Hydraulics and Water Resources Engineering Department, Jimma Institute of Technology, Jimma University and Jimma, Ethiopia. I have had a privilege of knowing and interacting with **Mr. Melkessa Delesa** for the last five years as one of my students and as Scientific Director of Jimma Institute of Technology. I rate him as a highly capable student with all necessary attributes to make him qualify for higher studies and professions in Hydraulics and water Resources Engineering.

As a teacher to him, from first day of class **Mr. Melkessa** impressed me with his ability to be articulate about difficult concepts and texts, his sensitivity to nuances with in theoretical and practical application, his passion for reading, able to work in team, responsible to the work given to him, sincere, sociable, and hard-working young man who possesses innovative, inventive, and creative approach to learning and project. He is a man with a lot of initiatives, drive and scholastic abilities.

He has remarkable high command over both written and spoken English, Excellent Project and Research worker, Computer skills and excellent at different application of software in Hydraulic Engineering. Finally, **Mr. Melkessa Delesa** was graduated with **Great Distinction** by scoring the highest score in Hydraulic and Water Resources Engineering. I strongly recommend him for any profession in Hydraulics and Water Resources Engineering and for higher studies.

With Regards,

Tamene Adugna Demissie (PhD)
Associate Professor of Water Resource Engineering
P.E. Water Resources Engineer
