| KABUL | KABUL | Afghanistan | 1004 |

10. Knowledge of English : Yes

Written: Proficient Spoken: Proficient Reading: Proficient

11. English Proficiency Test : No

12. Essey:

#1 I was born in a small village of Malistan district of Ghazni province, Afghanistan. After completing elementary school in my village I moved to Kabul, the most populated city of Afghanistan with over 4.2 million population. It was my first time that I saw infrastructures in Kabul city but what made me more depressed was the ruins of building and roads. When I started my secondary school at Marefat High School one of the best private school in Kabul, I promised myself to study well to become a good architect in the future to help build Afghanistan's infrastructures. As I believed that an architect needs to be a painter as well who can imagine better and see everything thoroughly with its best quality and is able to draw something with ease. So, I enrolled in the painting art course which was a separated section at school for three years. Due to my interest in participating at school events and class competitions I was selected as class representative. For my high school I moved to Abdul Rahim Shahid high school because there I got more times to go to mathematics and English courses. Beside of my studies I went to marshal art club where after six year I became a trainer in Marefat Taekwondo Academy and I received international Taekwondo ITF certificate from Korea ITF Head Quarter. And I also participated in many events, seminars and charity foundations. After University Entrance Exam, I was selected in architecture at Kabul University which was my first choice. I studied there three semesters and I owned full funded scholarship from ICCR. I studied my bachelor from 2014 – 2019 at NIT Bhopal. First of all I thank India for providing such a great scholarship and its nice hospitalities. I have many unforgettable memories from India. During five years I have visited many cities like New Delhi, Mumbai, Goa, Hyderabad, Shimla, Manali, Tirrtan and many other cities where I got many useful experiences by seeing wonderful places, a well-designed parks, high rise buildings, and cleaned environments which motivated me to pursue my higher studies in urban planning. During my studies at NIT Bhopal, I had many extra activities like being member of MANIT football team and one of the organizer of festival in MANIT. I have attended many seminars which held in Bhopal. My final project in last semester was about Resort Design and site location was in Goa and I have completed my internship at Pradeep K.Saxena & associates which is a well-known architectural firm in Bhopal, India. During my internship I did Drawings, 3D modeling and rendering. I returned to afganhaistan with a great achievement and very soon within a week I was placed at Balwan Construction and Engineering Company in Kabul as a BIM architect in Kabul. What I learned from this journey is that that architect is one of the most important and significant member of a society in shaping and creating beautiful environment along with urban facilities for the people of that society.
