## OBJECTIVE

Highly Creative graduate Architect with 2+ years experience. Designed 10+ multi-million naira projects personally and for FAA, at 30% less cost than competitors, receiving several client's recommendation. I am a highly driven and dedicated young Architect with passion for sustainability and green building. I also bring both office/design and on-site experience.

## EXPERIENCE

**FAA LLC, IB** June, 2018 - December, 2018

Intern Architect

FAA is a professional services firm engaging in Architectural design, interior design, construction, project management, as well as related research, planning and consulting activities.

Managed and supervised 5 multi-million naira projects, at 30% less cost than competitors, with 15% less rework than colleagues, receiving client's recommendation.

Created 2D drawing of floor plans .

Used Lumion Pro and Microsoft PowerPoint to render photorealistic visualisation for presentation.

Supervision and mentoring of Junior interns assigned to the unit, also improving their efficiency, work rate and technical know-how.

**Boldform Consults.** March, 2020 - Present

Graduate Architect

Boldform Consults is a professional firm with specialisation in building designs, construction, interior design and consulting services.

Actively involved in the on-site supervision and execution of projects.

Performed researches for lead Architect on new designs and projects that require in-depth analysis.

## MY LIFE PHILOSOPHY

---

Forging forward always irrespective of the disappointment and heartbreaks  
because it is never too late to be what I might have been
