12. Essey:

I can remember a time when I was able to transform a challenge into a success. I received my Bachelor's degree from a well-known private university in Bangladesh. My family was unable to cover my all costs, including tuition and other living allowances. I have to cover my living expenses. As a result, I was looking for a way to supplement my income. I can't find any suitable job because of lack of skill. Meanwhile, my three semesters have gone by. And this has a negative impact on my result. Then I questioned myself about how I am going to solve this problem. My university offers a 50% waiver to students with a CGPA of 4 out of 4. So I asked myself why I wasn't taking advantage of this opportunity. If I receive a 50% tuition fee waiver then I am not required to work. I can use the waived tuition fee to cover up my living expenses. From that time I worked hard to get 4. I achieved a CGPA of 3.98 out of 4 in my last eight semesters. I took the tuition fee from the home. Then I use it in such a way that it has no negative impact on my family and academic performance.
