Non- technical

- Honest and hardworking
- Willingness to learn
- Adapt new concepts quickly while working under pressure
- Good communication, optimistic and positive attitude.

Experience

I'm working for Government of Nepal, Ministry of Urban Development, Department of Urban Development and Building Construction from September, 2018 as Civil Engineer. Since then, I have been working for the organization and I'm lucky to I've got chances to work in all three regions of Nepal i.e. Himalaya, Hills and Terai. This exposure boosted up my confidence, intellectual growth and communication skill. Currently my posting is at Federal Project Implementation Unit,

Janakpurdham. During my work I got involved in design, drawing, estimate, procurement, supervision and execution of several building, road and bridge project.
