**Prof. M.C.Bhatnagar**  
Visiting Professor

Dated: 21<sup>st</sup> Dec 2020

### To Whom so ever it may concern

Mr Akshit Mehta is known to me as M.Sc. student for the last two years. I am writing in support of Mr. Akshit Mehta and his desire to attend your esteemed university for PhD. I have been his teacher in theory as well as experimentation and he has proved to be remarkable in both of them. Along with the laboratory work, I have taught him the following two theory courses:

- ELECTRONICS (Semester 1)
- ENERGY DEVICES AND MATERIALS (Semester 2)

Akshit as student has shown great interest and curiosity from the very first day. He has always been punctual, obedient and attentive during the class hours. He participates actively in classroom discussions and does not stop pondering over a problem until he has been satisfied with the solution. Akshit possesses a great set of programming skills in Scilab, C++ and Fortran (basic) which he has used solving various problems in quantum and statistical mechanics as a part of the curriculum in his bachelors as well.

The qualities mentioned above are also reflected in his grades in academics. Diligent in his work, Akshit has never shown poor conduct with his colleagues or his teachers. He is a very quiet individual with an observing nature and uses this personality of his to counter problematic situations to arrive at sensible decisions.

I am confident that Akshit will do great in his PhD under your guidance taking into consideration his impeccable character. It is a pleasure to recommend him for the doctoral program in Physics. It would be highly appreciated if you consider him for the scholarship that your university has provisions for. Do feel free to reach me in case any more information is required about him.

Yours sincerely,

(M.C.Bhatnagar)
