### LETTER OF RECOMMENDATION

It is with great pleasure that I write this letter of recommendation for Mr. Chanki Pandey, who is known to me for the last two years as an undergraduate researcher since 2019 and is applying to your esteemed organization. As an undergraduate researcher, he had the opportunity to participate in a multidisciplinary project integrating Electronics, Bio-photonics, Signal Processing, Image Processing, Machine Learning, and Deep Learning. With his interdisciplinary approach and good command of the English and Hindi language, he has approached field problems differently as he possesses excellent communication skills.

He has a great passion for innovation, prototyping, and research. Also, he had been a part of various technical and extracurricular endeavors. He is working with me for the last two years, and we have jointly published more than ten research articles in refereed International Journals and Conferences; more than five research articles were accepted or under review. Besides, he had a patent on the Australian Innovation Patent. He was recently awarded the "Best Research Paper Presentation Award" in the 4th International Conference on Recent Trends in Communication & Electronics (ICCE-2020) organized by the KIET Group of Institutions Delhi-NCR Ghaziabad, India.

His commitment to research and writing skills makes him well qualified to perform the work and meet the challenges of fundamental research and applied problems in a wide range of Electrical & Electronic Engineering areas. His academic records have been perfect, thus demonstrating his intellectual and scholastic abilities. He has an aptitude for research and learning and endeavors in new research and emerging areas. I have also found him punctual, dynamic, diligent, and very accommodating.

I highly recommend Chanki for any research work.

Best regards,

**Dr. Prabir Kumar Sethy**

**Assistant Professor**, Department of Electronics

Sambalpur University, Jyoti Vihar, Burla, Pin Code-768019, Odisha, India
