Recommendation letter for Mr. Aniruddha Das

It is with great pleasure that I am writing this letter of recommendation for Mr. Aniruddha Das who is currently in his final semester of Master's programme offered by the Department of Chemistry, IIT Kharagpur.

I've had the opportunity to know him for now almost 2 years, both inside and outside the class. Through many interactions, especially when he was attending my course on **Rational Drug Design**, I have watched him grow into an outstanding individual who excels in both academic and personal pursuits. I have closely followed his performance in class where he had been very interactive. I was really impressed with his performance in the course in which he received an **EX** grade.

Aniruddha has very good academic record throughout; he earned his Bachelor's degree from ABN Seal College, Cooch Behar (under Cooch Behar Panchanan Barma University) with high first class. After qualifying in the tough All-India level JAM examination, he joined the Master's programme at IIT Kharagpur. He has currently very high CGPA of 9.30/10. Aniruddha is intelligent, sincere and hardworking and has great potential to carry out research in any state-of-the-art laboratory doing top level research.

He has great command over written and spoken English and communicates well in classrooms.

In summary, Aniruddha has all the virtues which are expected from a researcher of high calibre aspiring to get admission in the joint PhD program of IIT Kharagpur and University of Manchester for which he has my strongest support.

Sincerely yours

A handwritten signature in blue ink, appearing to read 'A. Basak', with a long horizontal flourish extending to the right.

Prof. Amit Basak
