IIT Indore

Recommendation Letter

This is to recommend Mr. Vinay Singh whom I have known in the capacity of an M.Sc. thesis co-supervisor at the Discipline Biosciences and Biomedical Engineering at IIT Indore for about 2 years.

His M.Sc. dissertation is titled “Recombinant expression of organophosphorus acid anhydrolase in bacteria: towards developing environmental biosensors” in my group. The project is an interdisciplinary assignment where he had to express and purify organophosphorus acid anhydrolase enzyme which is responsible for the detection and degradation of organophosphorus pesticides and nerve agents. He has worked additional hours and learned several biotechnological and biomedical techniques during his thesis. He had eagerly participated in the laboratory meetings and group discussions and gave me a weekly update of the work he had carried out. He has done a significant progress in the work and I expect a good publication which may come soon from his thesis.

Academically, He has been a promising candidate with his achievements like First class during her entire career, qualified JAM, GATE, during his higher studies and a good CPI 8.9 in M.Sc. Vinay has also participated in different conferences, workshops, which were organized in IIT Indore. He has also been ahead in her co-curricular activities which make her an impressive personality. On a personal note, sincere. Persistent and hardworking are some words that aptly describe Vinay.

I would strongly recommend him for dual-PhD-program IIT Kharagpur and Manchester University. I am sure he would be an asset to the institute and would like to wish him the best in all his future endeavours.

Dr. Abhijeet Joshi

Assistant Professor

Department of Biosciences and Biomedical Engineering

Indian Institute of Technology Indore (IIT Indore)
