

Indian Institute of Technology (ISM), Dhanbad
Institute of National Importance under the Institutes of Technology Act, 1961)
Dhanbad-826004, Jharkhand, India

Date: 24 March 2021

To whomsoever it may concern

I am happy to serve as a referee for Ms. Nidhi Kushwaha. I have the opportunity to interact with her during the year 2019-21 at IIT (ISM) Dhanbad as subject teacher for various subjects such as Alternate Energy systems, Characterization of Materials, Numerical Methods and Computer Applications as well as M.Tech Coordinator. Ms. Nidhi Kushwaha has been a good student during her college days at IIT (ISM) Dhanbad where she is pursuing her M.Tech Degree. During her two-year association with the Institute, I could observe that she has been obedient, sincere and possesses an innate ability to address the academic issues out of the box. Being a student of Fuel Engineering, she very well understands the multidisciplinary nature of the discipline and has good knowledge of core subjects which may be her strength during doctoral research studies at your prestigious institution.

Throughout her academic career, Ms. Nidhi Kushwaha had her studies in English language. As a result, she has developed excellent command in English in both spoken and written versions of it. As a good human being, Ms. Nidhi Kushwaha has very pleasant personality and good sense of manners. I strongly recommend her as a research student at your institution and I wish her all the best for her future endeavors.

Sincerely,

Dr. Barun Kumar Nandi

Assistant Professor

Department of Fuel Minerals and Metallurgical Engineering

Indian Institute of Technology (ISM) Dhanbad
