### Letter of Recommendation for Mr. Omar Al Masalmeh

Dear Sir or Madam,

Berlin, 13 January 2021

It is my pleasure to write a letter of recommendation for Mr. Omar Al Masalmeh, born 07/12/1993 in Syria. I know him since autumn 2018 when I gave a course in the Master program in Water Engineering at the TU Berlin Campus El Gouna in Egypt. In my courses he obtained satisfying (3.3) in Engineering Hydrology, satisfying (2.7) in Colloquium Hydrosciences, good (2.0) in Hydraulic Engineering, good (1.7) in Environmental Hydraulics and very good (1.0) in Modeling of Hydro- and Environmental Systems. He wrote his Master Thesis entitled *Rainfall-Runoff and Sediment Transport Modelling of Wadi Billi, Egypt* under my supervision which was evaluated with very good (1.3). With his final grade he is above average when compared to the other students of his semester.

Mr. Al Masalmeh has very good expertise in the modeling field. I came to know him as a very intelligent, curious, highly-motivated, engaged and very self-dependent working student. Overall, I can recommend him for a PhD thesis, specifically in the field of hydrosystems modeling.

If you have any questions, do not hesitate to contact me.

Yours sincerely,

Prof. Dr.-Ing. R. Hinkelmann
