

HALDIA INSTITUTE OF TECHNOLOGY

(An Institution of ICARE)

(Approved by AICTE, Accredited by NBA)

(Affiliated to West Bengal University of Technology)

P.O- HIT, Haldia, Purba Medinipur-721657, West Bengal, India

Date: 04th Feb 2022

TO WHOM IT MAY CONCERN

As the Head of the Department at Haldia Institute of Technology, I recommend Aritra Hota, who has been a student at our Institution under West Bengal University of Technology (currently known as Maulana Abul Kalam Azad University of Technology) in Computer Science and Engineering department during the academic sessions of 2018 to 2022, for a joint doctoral programme with the collaboration of IIT Kharagpur and University of Manchester. For almost four years, I have witnessed his development and growth as his professor.

Aritra is blessed with praiseworthy analytical and logical thinking skills. He has always been a very diligent, devoted and dedicated individual. He has commendable cognitive ability, owing to his unquenchable thirst and passion for knowledge. He thrived in the unfathomable depth of his subjects. His passions lie in the variety of subjects in his field, from Design and Analysis of Algorithms to Data Structures, Databases, Operating Systems, Computer Networks and various others. He is ardently proficient in programming in C/C++, Java, and various other programming languages, and was one of the best programmers I had the privilege to teach. All throughout, he has been successful in maintaining his position as one of the top students of the department. Come-what-may his sincerity stood uncompromised.

He has proven himself to be ambitious. He always took part in Computer Society of India(CSI) and College Technological fests, and won coding competitions regularly. He also participated in other contests like robotics, painting and sketching, etc. When faced with a challenge that he is determined to win, he always took it head on. His academia exemplifies his constant urge to innovate ideas and mechanisms. He has proven to be an efficient group member as well as a leader, owing to the final year project which he lead and helped the team complete it perfectly. He held the group together even under stressful timelines to get the work done.

As a person, he has shown integrity of character. His moral code of conduct and nobility stands firm. He can take failures well and can take lessons from past mistakes to work for better in the future. As his teacher, I have seen him grow as a student as well as a person. He is an effective communicator and has evolved to be a better person and a valuable asset to his immediate community. His excellence is also revealed in extracurricular activities like content writing and music. He has always been involved in several cultural meets as well.

With proper guidance and motivation, which he is sure to get from your esteemed institutions, he shall excel in whatever he does to strive towards the better future that he dreams of. I am sure he will bring out the best in himself to produce results that will be praiseworthy since he will get the choice and freedom of learning that he intently desires.

I am obliged to recommend Aritra Hota to your program.

Dr. Subhankar Joardar
