Letter of Recommendation

It gives me immense pleasure to recommend **Mr. ATHUL.K** whom I know as a postgraduate student in the department of Chemistry at St. Joseph's College (Autonomous), Devagiri, Calicut, INDIA during the year 2019-2021. Besides being a good student, Athul is a very self-driven person and has the ability to self-analyse his strengths and weaknesses and is always ready to work on them. Soft spoken and well behaved, he is undoubtedly one of our best students. He has well defined ambitions and is determined to succeed in any of his undertakings. I have taught him chemistry for his post graduate programme, and I was his research supervisor during the time he carried out his Master of Science (M.Sc) programme. Through his project titled 'Synthesis, Characterization and Phase Transition Properties of a Chiral Cyclohexanone Compound', he was trained in the literature survey, research methodology, multi-step organic synthesis and molecular structural characterization by spectroscopy.

He is self-motivated and hard working. He is also a good team player and was an active member of our Chemistry Association. His intelligence, experimental skills, pleasing personality and commitment will make him an asset to any institution. I recommend him for the Ph.D programme into your esteemed research group and I am confident that he will continue to be a promising and competitive student.

Thanking You

Sincerely,

A handwritten signature in black ink, appearing to read 'Manoj Mathews'.
