

To Whomever it May Concern

Dear Sir/ Madam,

I am Assistant Professor of Department of Chemistry, Central Institute of Petrochemical Engineering & Technology (CIPET), Chennai- 32, Tamil Nadu, India. It is my pleasure to recommend Mr. Kaarthick.K for admission to joint doctoral program at IIT KHARAGPUR.

He did his four years B.Tech., course in Plastics Technology in CIPET from 2017-2021 under Anna University Chennai, Tamil Nadu Affiliation. He was the class representative for four years.

As a faculty, I have handled his second and final year major theory papers. Also I have guided him along with three of his classmates in his final year project.

He is a well disciplined and straight forward student. He has good academic performance and excellent communication skills. He has delivered his demonstration skills during seminar and discussion sessions.

Being the class representative for the four years, he had huge responsibilities and has handled everything with utmost care, maturity and well behaved manner.

Throughout the course, he demonstrated great perseverance and initiative. He also has the ability to lead a group and deliver his excellence among others, which I noticed during his project work commitments.

His performance in my class is a good indication that he would perform well as a graduate student and would be an asset to your program.

If required for any further assistance, or provide with you any further information, please do not hesitate to contact me.

With Regards,
