Recommendation letter for the candidature of Mr. Korak Kar.

It is my absolute pleasure to recommend Mr. Korak Kar for the Ph.D. position in the Joint Doctoral program of IIT Kharagpur with University of Manchester. I have known him in my capacity as a guide for his summer internship programme. Even though, the project had to be conducted online due to pandemic, he was deeply invested in the work. He made a thorough literature review on nanomaterials and their potential applications on the separation of rare earth elements.

During the course of his summer internship, I could recognize his ability of multi-tasking and diligence. Along with his undeniable talent Mr. Korak has always been an absolute joy to work with. He has a very pleasing manners, eternally upbeat, and also willing to work on areas he feels he could improve upon. He always explained his views very concisely and gave supporting arguments that were both clear and persuasive. He would make an excellent addition to a team.

Without a doubt, I confidently recommend Korak for the Joint Doctoral program. I wish him all success in his research endeavors.

(Benadict Rakesh)
