To Whom It May Concern

It is my pleasure to write about Mr. Korak Kar, who is currently doing M. Sc project under my guidance. Korak has a positive attitude and is always willing to help others. He is flexible and willing to learn new concept, and continues to expand his knowledge on a daily basis. He enjoys a challenge and is able to find creative solutions. I am very impressed with Korak's organizational skills. He has the ability to organize his time efficiently and is self-motivated. He is very personable and empathetic, effectively working student in our university.

I have a strong opinion that he has incorporated the right aptitude to do well in Pd. D studies and hence recommend him for an admission as well as all the necessary assistantship.

I wish him grand success in all his future endeavors.

Sincerely,

S. Sahu
