

Letter of Recommendation

I am delighted to write this letter of recommendation in support of Mr. Karan Chabhadiya's application for the Ph.D. program. I know Mr. Karan since the year 2015 and I was his course instructor as well as thesis supervisor for Bachelor and Master Degrees at Marwadi University Rajkot, India. Our association in the course forms the basis of this recommendation letter.

Karan is sincere as well as creative in his work and passionate to pursue his career in the field of Environmental Engineering. He has an excellent grip on Environmental Engineering fundamentals and possesses exceptional quantitative and analytical skills. I would place him among my bright and motivated students.

He was actively engaged with very challenging projects of environmental engineering such as characterization of soil and contaminated area affected with textile effluents, Utilization of textile sludge for the construction purpose, recovery of valuable metals from spent Li-ion batteries. He has published and communicated research papers and book chapters in reputed journals and publishers. Karan has achieved valuable learning after participating in several workshops, national, and international conferences. Moreover, he has organized various technical events in the university, and I noticed his strong fundamental base. He was abreast of current advances and the latest developments in the field.

On a personal level, Karan is a pleasant, caring, and introverted person. He has sound knowledge of Environmental Engineering and is capable of working with multidisciplinary topics as he is trained in this manner. He can take any project related to environmental engineering and can finish it on time. Besides, his academic schedule he was actively involved in various athletic events. This proves his balance in managing personal and academic goals. I extend my support and heartily recommend his candidature at your esteemed organization.

Regards,

Dr. Pankaj Pathak
Assistant Professor
Department of Environmental Science
SRM University AP, India.
