LETTER OF RECOMMENDATION

It is pleasure to recommend Mr. K Krishnakanth to your esteemed University for the Doctoral studies. My acquaintance with him for a period of four years as allowed me to interact with him and assess his abilities. I have taught him the course subjects on "**Radar Systems**" and "**Computer Networks**" as part of his Bachelor's studies in 'Electronics and Communication'.

Mr. K Krishnakanth was attentive in the classes, floating inquisitive questions and being sensitive to nuances in various concepts. His ability to visualize and link the multi-disciplinary concepts makes him an ideal student for research and development. As part of his Bachelor's Project work during his internship at **Blue Chip Technologies (R & D Lab)**, he undertook the role of software programmer where he has developed the "**Ultra Low Power Wireless Weather Station**" using the MATLAB. The obtained results were very much appreciable and worth enough to publish in a peer-reviewed journal. He presented a paper on "**NANO TECHNOLOGY**" at National Conference of **TARANG2K7** held in our college.

Throughout the program, Mr. Krishna showed great perseverance and initiative. He was identified as a good team player during his projects. Apart from being limited to academics, his interested included in participation in the events of Department Student Technical Associations.

To pursue a **PhD** degree at an International Research university is one of his most cherished dreams and I assure you that he has the required knowledge and skill set to excel in his endeavors. It is prudent decision to enlist him as a research scholar at your University. I wish him all the best for his future.

(Dr. K. Gopi)
HEAD OF THE DEPARTMENT
Dept. of Electronics & Communication
Sreenivasa Institute of Technology
and Management Studies
