This is to certify that Ms. Nidhi Singh student of IIT BHU (Varanasi) carried out summer research internship under my supervision and guidance in the field of Organometallic Chemistry in the Department of Chemistry, University of Delhi during the period from June 2021 to October 2021 for 4 months. During the period of her internship program in my laboratories, she had been exposed to synthetic chemistry, various purification methods and characterization techniques such as IR, NMR spectroscopies. She synthesized some known and a few unknown compounds which demonstrated her synthetic skills. During her stay she was found to be diligent, hardworking, and inquisitive. I wish her every success in her career.
