IITKGP-University of Manchester Dual Doctoral Degree Program

**Subject: Reference letter for Nidhi Singh to apply for IITKGP-University of Manchester Dual Doctoral Degree Program**

I am writing this letter to give my highest possible recommendation for **Nidhi Singh**, who is currently a M.Sc 4<sup>th</sup> semester student in the department of Chemistry, Indian Institute of Technology (BHU), India. I am privileged to write for her on her academic competency.

I have taught four courses including one practical course to **Nidhi Singh** during her M.Sc. During this period, her sincerity, punctuality, very hard-working nature, never-give up attitude, power of independent learning and ability to think about chemistry based research problem are clearly evident to me. She is always eager to learn new chemistry, new research techniques, and new instruments and is a very fast learner. She is within my top 2% students; I have ever taught. Her academic background is excellent with good marks in his each and every major examination. Her M.Sc. CPI of **9.58/10** further indicates his excellent knowledge in chemistry. She is also fluent in read, write and converse in English.

She always keep herself indulged in writing manuscripts. She has already wrote one review article which will be published soon.

Considering all the above positive points, I am providing her my highest recommendation in support of her application for IITKGP-University of Manchester dual Doctoral Degree Program. I am very strongly recommending her for a doctoral position in your eminent University. I strongly hope that she will be highly successful graduate student at the IITKGP and University of Manchester.

I shall be happy to provide further information about her, if required.

*Samya Banerjee*
