Re: Reference for Sampreet Rangaswamy

To whom it may concern,

I am writing to provide a reference for **Sampreet Rangaswamy**. I have known Sampreet for 9 months as his MSc dissertation supervisor at the University of Manchester. Previous to this, he studied at SRM Institute of Science and Technology, India where his academic performance was excellent (1st class).

I do not yet have any examination marks from Manchester for Sampreet, but he is performing well in his project and capable of obtaining a distinction grade. Due to COVID, I have been unable to meet with Sampreet in person, but he has adapted well to remote working and has used his initiative to conduct research without close day to day supervision.

It is clear he is highly motivated for research and further PG study, and I am sure he has both the ability and drive to produce a high-quality thesis.

Yours faithfully,

Prof Joseph Robson,
Professor of Physical Metallurgy
