PLASTIC TECHNOLOGY DEPARTMENT

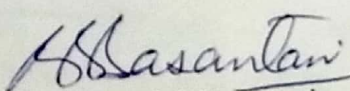

Date: 2nd March 2022

LETTER OF RECOMMENDATION

I am indeed very happy to pen down few words for one of our dynamic students Awaish Shaikh, a brilliant, multi-tasking student of this Department. Awaish has been a brilliant student, not only in academics, but also in Co-curricular activities which can be seen in the certificates which he earned during his study. He has been our Placement coordinator and has done a very good job. His pleasing personality, warm hearted approach to any situation has won the hearts of many teachers and students. His passion to learn new things, inquisitiveness is amazing. His grades have been very good during his bachelor's degree study also, and I am sure, he will do a very good job if given a chance.

Awaish Shaikh has a down-to-earth nature and respects others while adhering to rules and regulations. His independent or group work on research projects and studies has been immensely satisfying. He is an analytical thinker and is stimulated by new academic challenges. This trait makes him strive for innovative solutions to real-world problems with a strong desire to improve the world around.

I wish him all the success and my blessings for his wonderful future.

Prof. Bharati G Basantani,
Associate Professor and Head- Plastic Technology Department,
L.D.College of Engineering;
