To whom it may concern

I am pleased to recommend Siva Teja Sowrya Yannana, who achieved a master's degree in Environmental and Land Planning Engineering at Politecnico di Milano with high grade.

I taught him the course "Urban Renewal and Planning" and I had enough opportunity to observe his participation in class and to evaluate his knowledge of the subject matter. His overall performance was very good.

I appreciated his enthusiastic approach to studying and I am confident that this attitude will be helpful to him in his future activities.

Because of his skills, positive attitude, and strong motivation, I recommend him for admission to your institution.

I wish Siva Teja Sowrya Yannana every success in his career.
