## **Letter of Recommendation**

I am Srikrishna Balachandran, Project manager in United Nations Development Program looking after Circular economy and plastic waste management portfolio.

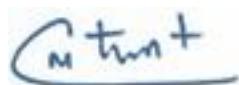

I am pleased to recommend to you Ms. Sreya Vaidyan, whom I have known for the past three years as a student of Master of Urban Management, CEPT University. I was one of her external mentors in her final year thesis project, “EPR in Plastic Waste Management”.

Her pleasant and positive attitude was noted throughout the project. She is always willing to work diligently on areas that she needs to improve upon. Her strong communication skills and managerial ability helped her to acquire detailed data from various stakeholders that resulted in a successful research.

For her thesis topic “EPR in Plastic Waste Management” she had shown exemplary work, being dedicated and persistent throughout. She worked beyond her course requirements, and achieved to design an efficient business model for plastic waste management. Her thesis work was well appreciated by the jury panel, headed by the Director, SBM(U), MoHUA. Her passion for the topic reflected in her consistent work, resulting in second rank, securing grade A.

Ms. Sreya has the capacity to undertake research projects and has proven to work focussed within a time frame, to achieve her targets efficiently. Ms. Sreya has my highest recommendation and I believe that she will be an extremely positive addition to your institution.

Yours sincerely,

**Srikrishna Balachandran**

Project Manager - Plastic Waste management

UNDP, New Delhi
