To Whom It May Concern

This is to certify that the Mr. Srijon Sen, an undergraduate student of the Department of Chemistry, Ramakrishna Mission Vivekananda Centenary College, Rahara is well known to me for the last four years. He studied in this college from 2017-2020. He has obtained his B.Sc. degree in the year 2020 with First Class and with 73.88% in Hons. subject. Then he cleared the All India Joint Admission Test for M.Sc. in the same year and now pursuing his M.Sc. from the premier institute, Indian Institute of Technology Kharagpur in the subject, Chemical and Molecular Biology. He has performed a couple of project works on cutting edge research areas under the supervision of renowned faculty members from the very reputed institutions of India.

Srijon was very intelligent student. He bears the very good concept and a clear understanding in Chemistry. He was interactive in class and even outside the class hour. Simultaneously he could perform the laboratory works very efficiently and also in a meticulous way. Above all, he had the ability to work within a team with good management ability.

He bears a strong academic background and at the same time he has a strong passion for higher studies and research. His complete biodata is a reflection of his strong academic carrier.

I strongly recommend Srijon and wish him a great success.

Thanks and regards,

Sincerely yours,

(Sougata Sarkar)
