

**Innovation, Incubation &
Entrepreneurship Development Centre, NIT
Srinagar, Hazratbal, Kashmir (J&K)-190006**

Dated: 01-03-2022

With immense pleasure, I am writing to recommend Mr. Tajamul Ashraf for admission to the PhD Programme. I have known him, vide Enrollment number 2018BIT031, batch 2018-2022 through his entire bachelor's degree in IT at National Institute of Technology Srinagar-India. I have been the mentor for Mr. Tajamul Ashraf from his 2nd Semester, during this tenure I have found him a highly motivated student who has zeal for knowledge and learning.

During the time he spent at IIEDC (Innovation Incubation entrepreneurship Development Centre), he contributed a lot in terms of organizational changes, nature of events, inclusiveness of the associated student clubs. He was designated as Coordinator of the IIEDC team. Through my observation, I would like to say that he is attentive and studious and possesses a positive attitude towards academics also. Throughout his course of study, Mr. Tajamul Ashraf has shown great interest in practical aided learning techniques. We engaged in several courses and research related discussions in which, he confidently talked about his aspirations towards higher education. For his project, he chose the significantly complex topic of "A Novel Robust Deep Learning Model to find the effect of variations of multiple coherent climatic factors on Climate Change.". Besides this, he has also gained experience in numerous simple concepts that are highly valuable for the future generation. Besides the academic record, Tajamul's participation in NEC (National Entrepreneurship Challenge), a National-level competition for Engineering students held by IIT BOMBAY, clearly displays his/her interest in the innovation and creative sector. NEC was a 6 month-long and a highly competitive contest which was led by the team leader Mr Tajamul Ashraf. Under my guidance NIT SRINAGAR was able to bag 1st position in advanced category. As a person who is always ready to take up responsibility, he carries out his duties with immense dedication. Throughout the year Tajamul Ashraf was an active participant in our discussions, and he always supported his peers. I am certain that Tajamul is going to continue to do great and creative things in future and stand out as an individual at your school. I have the deepest personal and professional respect for him/her, and sincerely believe Tajamul will bring his unique energy, optimism, passion, and tireless creativity to your class and University as a whole. Thus, he has my highest endorsement for admission into this course at your university.

If you have any questions about this recommendation, please do not hesitate to contact me for I will gladly try to help.

Sincerely,

Prof. Saad Parvez
Head IIEDC
NIT SRINAGAR
