

SAHRDAYA COLLEGE OF ENGINEERING AND TECHNOLOGY
DEPARTMENT OF CIVIL ENGINEERING
LETTER OF RECOMMENDATION

TO WHOM IT MAY CONCERN

As the faculty member and HOD of the Civil Engineering Department, it gives me great pleasure to write this recommendation letter for **VASUDHA VASU**. I have been her Department head in the Civil Engineering Department at Sahridaya College of Engineering and Technology, Kodakara, Thrissur.Kerala, India.

VASUDHA VASU has struck me as a sincere and punctual faculty. She has really good analytical skills, which help her in problem-solving and coming out with innovative solutions. Her logical reasoning and creative thinking put her in a good position in her performance.

VASUDHA VASU is quite ambitious and career driven. She works hard to achieve her goals and is committed to her work. She is emotionally matured, confident and good-natured. Outside of academics. She has shown interest in different cultural and co-curricular activities. She is respectful of all persons and has built a good relationship with her administrators and peers.

VASUDHA VASU is a faculty with good calibre, who is ready to work hard, acquire knowledge and also has a potential to apply that knowledge in her concerned area of work. She was very much involved in the Departmental events like International Conferences, Tech fests, Seminars and workshops; she is indeed an apt candidate for higher studies. Hence I have no hesitation in recommending her to be considered for the potential candidate for admission for the Joint doctoral program conducted by IIT Kharagpur and University of Manchester.

I wish her all the success in her academic endeavor.

Yours sincerely

Prof. Sunny C P

Head of Civil Engg. Department, SCET-kodakara.

TO WHOM IT MAY CONCERN

30.07.2021

It gives me immense pleasure in recommending one of my favorite students Vasudha Vasu. I have taught her Environmental system modelling, GIS and Remote Sensing. I've had the privilege to supervise her final year project as well.

Ms. Vasu is one of the most ambitious and hardworking students I have known. During her master studies, she received MHRD scholarship by qualifying in the GATE exam. She has really good analytical skills, which help her in problem-solving and coming out with innovative solutions. She is very attentive during the lectures and always comes up with meaningful questions which helps not only her but other students to understand the concept better.

Ms. Vasu likes to be updated with her knowledge which is very evident from the fact that she doesn't miss any webinars, workshops or technical talks organised by the institution. She also participated in the Winter School-2017 conducted in partnership with IIT Bombay and Kerala Institute of Local Administration (KILA) on participatory canal management in Alappuzha town in Kerala. She also completed the course on "RS & GIS Applications in Water Resource Management", which is an Off-Campus Outreach Certificate Programme conducted by this Institute. She is also well versed with softwares such as BIOWIN and QGIS.

Ms. Vasu is a student who has the capability to work under pressure to acquire knowledge and also has a potential to apply that knowledge in her concerned work. Apart from attending regular classes she was also involved in the departmental events like technicalfests, seminars and workshops.

Hence, I have no hesitation in recommending Ms Vasu to be considered as a potential candidate to your institution

If I can provide any further assistance, please do not hesitate to contact me.

Sincerely,
