Subject: Letter of Recommendation for Mr. Rahul Biswas

To Whom It May Concern,

It is with much pleasure and enthusiasm that I am writing to you to support the candidacy of Mr. Rahul Biswas for admission to the Joint Doctoral Program at Indian Institute of Technology Kharagpur with University of Manchester. I highly recommend him in my capacity of being his professor and project guide. I have taught him various courses throughout his undergraduate study.

Rahul has been my student since August 2017. He has attended my lectures on “Engineering Thermodynamics & Fluid Mechanics”, “Applied Thermodynamics”, “Numerical Methods”, “Heat Transfer”, “IC Engines and Gas Turbines” and “Mechatronics” where he received very good grades. His interactions in the class made him stand out from other students.

To the best of my knowledge and belief, he has demonstrated a very high research aptitude and has a passion for novel thinking. Along with that, Rahul is very disciplined and well-mannered, having excellent communication skills. His sound technical knowledge and character strength make him an ideal candidate for this program. I am convinced that Rahul will continue to be very productive. He has my highest recommendation, and I wish him success in life.

Sincerely,

(DR. ARIJIT DUTTA)

Assistant Professor,

Department of Mechanical Engineering,

Kalyani Government Engineering College,
