### TO WHOM SO EVER IT MAY CONCERN

It is my pleasure to recommend **Mr. Imran Khan** who is keen to pursue his career in research. I have known Mr. Imran Khan for the past 3 years and taught him during his M.Sc. (Physics) at the Department of Physics, Jamia Millia Islamia, New Delhi, India as a Professor.

During his M.Sc. (Physics), he took specialization in 'Laser spectroscopy'. I have taught him the courses titled 'Photonics' and 'Laser spectroscopy' in 3rd and 4th semester respectively. During my lectures he was very a regular and hard working student. He carries an excellent academic record and obtained an 'A' grade in my courses.

Mr. Imran Khan has consistently performed excellent and has been a very active participant in all class discussions and activities. During my interaction with him, I found him attentive, intelligent, and possess a lot of enthusiasm in research. He has high level of confidence, good communication skills and has the ability to do work effectively in group as well as individually.

Therefore, I recommend Mr. Imran Khan for the doctoral program. I believe he would perform remarkably in the chosen PhD program and will prove to be a great value to the research group.

I wish him success in all endeavours in life.

(Dr. Mohd. Shahid Khan)
