Date: 10<sup>th</sup> March, 2023

### LETTER OF RECOMMENDATION

I recommend Mr. Vishal Kabi for higher studies in your university. He is working under my supervision at Defence Research and Development Laboratory as a RESEARCH FELLOW on a full time basis in the Directorate of Computational Dynamics for last one year and four months.

He has gained expertise in Computational Fluid Dynamics analysis of aerospace vehicles using commercial softwares. He has worked on combustion, heat transfer, and has interest on both.

He is an enthusiastic person, and is passionate in his work, sincere, hardworking and ready to learn. He is compatible with his co-workers within the organization.

I am confident that he will make impressive strides in his chosen career. Since he is planning to enrol in your university for higher studies, I strongly recommend his application for undergoing PhD program in your university.
