Sub: Constitution of Committee for Promoting IIT Malaysia

IIT Kharagpur has been advised by GoI to set up its offshore campus in Malaysia, namely, IIT Malaysia in collaboration with University of Cyberjaya. It is expected that the first session will begin from September 2023. It is necessary, therefore, that a sufficiently informative and attractive video is made as early as possible in order to promote the new institute, which is a joint venture of IITKGP and UoC. To this effect a committee consisting of the following members is proposed that will look after all aspects regarding making of the promotional video. /P

SI No
