[Sub: Nomination for Prof. Masahiro Yamashita, FRSC as adjunct Professor]

Dear Sir,

On behalf of the Chemistry Department, I would like to strongly nominate Prof. Masahiro Yamashita, FRSC, from the Department of Chemistry, Graduate School of Science, Tohoku University, Japan, as an adjunct Professor of our Institute. He has strongly expressed interest in being part of this historic and prestigious Institute.

Prof. Yamashita is a world-renowned Physical Inorganic and Material Chemist and a fellow of the Royal Society of Chemistry. He is known mainly for his seminal contribution to coordination chemistry, molecular magnetism, spintronics, and quantum information processing. He has over 40 years of experience in research and teaching and is very active to date. So far, he has published over 500 research articles, 100 reviews, and 20 books with an h-index of 64 that includes outstanding findings published in prestigious journals like Nature, Science, Journal of the American Chemistry Society, Angewandte Chemie International Edition, Physical Review Letters, etc. He has extensive collaboration with many renowned research groups in materials science across Japan, the USA, Europe, and India.

Having an association of such a world-renowned academician with us is truly an asset for the Institute that will remarkably improve the academic relation between IIT Kharagpur and universities in Japan, especially the Indo-Japan research collaboration.

For your consideration, I have attached his CV, Publication list, and a brief note mentioning his engagement at IIT Kharagpur as a part of his adjunct professorship. I further confirm that during his stay at IIT Kharagpur, the Department of Chemistry will provide the necessary office space and other required facilities and, importantly, interaction opportunities with our Institute's students and faculty members.

You may recall your interaction with him on 13 December 2022 during the MTMM conference held in Gargi Auditorium organized by the Department of Chemistry.

Kindly consider his association with us as an adjunct professor.

Thank you very much

Sincerely

J. Dey
